

Yelp is a website people use to find information about local businesses and read reviews from other customers.

Yelp is a popular way for customers to find details and reviews about local businesses. For example, if I wanted to find a place near me in Brighton that sells great fish tacos, I would visit [www.yelp.com](http://www.yelp.com), type “fish tacos” here and “Brighton, MA” here, then click the magnifying glass.

When I put in a search it brings me to a page similar to this:

I can then pick the place based on location, hours, menu, star ratings, and customer comments about the food and service.

## Filtering your search

After putting in your search, you will be redirected to a page with many results for your search. At the top of this page will be a bar that looks like this:

Use this to narrow down your search. The dollar signs are related to cost, so if you don't want your meal to be super expensive, click the buttons with either one or two dollar signs.

You can also search for restaurants that are open now, or ones that offer delivery or take out.

Your results page will look like this. On this list of places, you can see a photo, the name of the restaurant, its yelp rating, price range and address

Had a craving for Tacos, and when I walked in I was not disappointed!  
Small place, gets packed quick. However, that's a great sign for a small street food place!  
I ordered the Al Pastor Torta, and it was one of the best I've had. My craving for tacos was turned to the torta. It was full of pork... they did not skimp on the avocado! Definitely get the pineapple with the al pastor. It's bomb. Make this place a planned stop if you're in the area. Super fast, polite service!

Delicious, affordable, efficient.  
I have enjoyed myself every time I order take-out or eat at chilacates. I have had their burritos, spicy chicken enchiladas, and tortas. I don't really enjoy their tacos, and on one occasion my chicken burrito was mainly rice and beans. But every other time I have been thoroughly satisfied and happy with my meal. Would definitely recommend to friends.
